**SECTION 3 - HAZARDS IDENTIFICATION**

**Emergency Overview**

Viscous grey liquid with citrus scent. CAUTION. May cause moderate eye irritation.

**POTENTIAL HEALTH EFFECTS** (for more details, refer to Section 11)

**Primary entry route(s):** Eye, skin and ingestion.

**Eye:** May cause eye irritation especially from the pumice mechanical action.

**Skin:** No effect.

**Inhalation:** No effect expected.

**Ingestion:** May cause slight irritation, diarrhea, and nausea.

**Long-term (chronic) exposure:** Prolonged contact with the product may cause dryness, slight irritation.

**Conditions aggravated by exposure:** None expected.

**Carcinogenic status:** See TOXICOLOGICAL INFORMATION, Section 11.

**Additional health hazards:** For further information, see TOXICOLOGICAL INFORMATION, Section 11.

**Potential environmental effects:** See ECOLOGICAL INFORMATION, Section 12.

#### SECTION 4 - FIRST AID MEASURES

**Eye contact:**

Immediately rinse with plenty of water for several minutes, keeping eyelids open. If irritation persists, repeat flushing and seek medical attention immediately.

**Skin contact:**

No effect expected.

**Inhalation:**

No effect expected.

**Ingestion:**

If conscious, give plenty of water. Never give anything by mouth if the person is unconscious. Do not induce vomiting. In case of discomfort, seek medical attention.

#### SECTION 5 - FIRE FIGHTING MEASURES

**Fire hazards/conditions of flammability:**

Not flammable under normal handling conditions. Closed containers may rupture if exposed to excess heat or flame due to a build-up of internal pressure.

**Flash point (Method):** None

**Lower flammable limit (% by volume):** N/Av

**Upper flammable limit (% by volume):** N/Av.

**Explosion data - Sensitivity to mechanical impact:** Probably not sensitive

**Explosion data - Sensitivity to static discharge:** Probably not sensitive

**Auto-ignition temperature:** N/Av

**Suitable extinguishing media:**

Water, foam, dry chemicals, carbon dioxide.

**Special fire-fighting procedures/equipment:**

During a fire, irritating smoke and fumes may be generated. A self-contained breathing apparatus is required for fire-fighting personnel to protect themselves from irritating products produced during the combustion. Move containers from fire area if it can be done without risk. A stream of water directed into the product generates a lot of foam.

**Hazardous combustion products:**

Oxides of carbon and nitrogen and other irritating gases.

#### SECTION 6 - ACCIDENTAL RELEASE MEASURES

**Personal precautions:**

Wear adequate personal protective equipment (See Section 8).

**Spill response/Cleanup:**

Wear personal protective equipment. Stop the leak if you can do so without risk. Put back the product into containers for disposal; or clean up spills using absorbent material and place in waste container for destruction. Resume cleaning by rinsing with water.

**Environmental precautions:**

Not available

**Prohibited materials:** N/Av

**Special spill response procedures:** N/Av

## SECTION 7 - HANDLING AND STORAGE

Avoid contact with eyes and clothing. Keep away from heat and flame. Keep containers closed when not in use. Do not use with incompatible materials such as strong oxidizing agents.

### Storage requirements:

Store in a tightly sealed container, in a well ventilated room. Do not store with food products. Keep from freezing.

**Special packaging materials:** N/Ap

## SECTION 8 - EXPOSURE CONTROLS AND PERSONAL PROTECTION

### Engineering controls:

Not required under normal applications.

### Respiratory Protection:

Not required under normal applications.
